Global Markets – Rates Trading

Rates Trading is engaged with pricing and execution in the interest rate derivative market. In focus are all interest rate products from plain vanilla swaps to exotic and hybrid options.

Global Markets combines the sales, trading, and structuring of a wide range of financial market products. This incorporates Debt Trading, including FX, Rates, Credit, Structured Finance and Emerging Markets; Equities and equity-linked products; Exchange-traded and over-the-counter derivatives and Money Market and securitised instruments. Coverage of institutional clients is provided by the Institutional Client Group, while Research provides analysis of markets, products and trading strategies for clients.

Fields of activity:

- Pricing and execution of interest rate derivatives
- Development of an electronic trading platform for interest rate derivatives

Location:

Frankfurt/Main (Germany)
